**ACADEMIC PLANNING COMMITTEE
RECOMMENDATION**

SR-17-18-18 APC

Recommends that the following programs be continued along with a recommendation for resource development:

- BA/BS in Geography
- Undergraduate Certificate in GIS

RATIONALE:

As a fully online program with enrollment increases, this program is functioning with the absolute minimum number of faculty. This constricts the ability to handle substantial growth in enrollment. It also restricts the ability of current faculty to increase their own research or research with students (with faculty guidance). As additional marketing would undoubtedly bring in additional enrollment, faculty allocation (particularly in the certificate) could not serve a significant enrollment growth. Even the currently in-progress articulation agreements have the potential to provide such growing enrollment.
